REVOLUTIONIZE YOUR CAD EXPERIENCE!

LAND F/X ADDS CUSTOMIZED FUNCTIONALITY TO YOUR EXISTING CAD ENVIRONMENT.
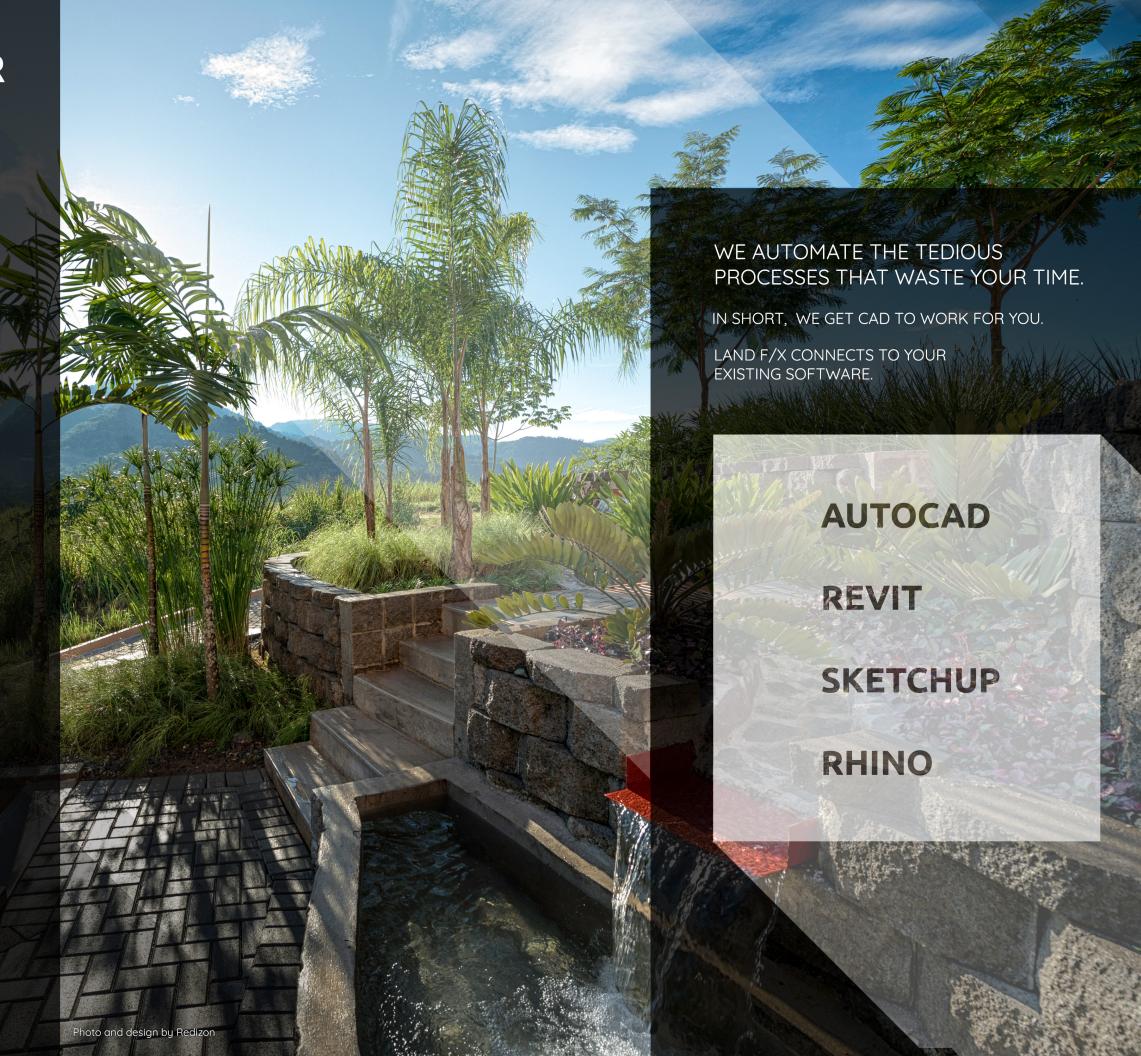

design F/X

A detail-processing powerhouse that forms the core element of our software. Organize your office's standard details and make them accessible from CAD by multiple users, across multiple sheets.

planting F/X

The best planting design software available. We automate all your tedious and error-prone tasks – like error checking, counting plants, labeling, and scheduling – and make them available in easily accessible dialog boxes within CAD.

irrigation F/X

Specify equipment from manufacturers, complete with performance data, all from a CAD dialog box. Automated calculations and error checking ensure accuracy across the board.

WE AUTOMATE THE TEDIOUS PROCESSES THAT WASTE YOUR TIME.

IN SHORT, WE GET CAD TO WORK FOR YOU.

LAND F/X CONNECTS TO YOUR EXISTING SOFTWARE.

FULL. SERVICE.

Joining Land F/X grants you access to:
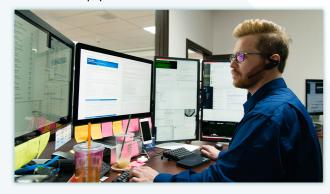

Weekly Power Tips

Quick videos that show off a new tool or technique. Spend just 2 minutes per week and become a Land F/X guru.
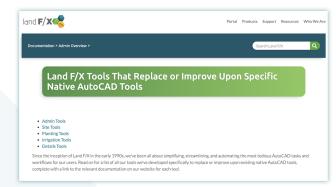

Live Webinars

We host and record live webinars with topics ranging from usage to just about any subject related to the world of landscape architecture and irrigation design.

Growing Plant Database

Access more than 40,000 plants from our ever-growing plant database. If the plant exists, we're likely to have it – along with data to support it.
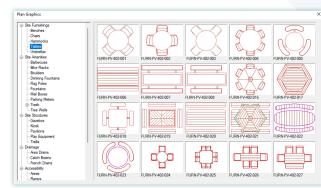

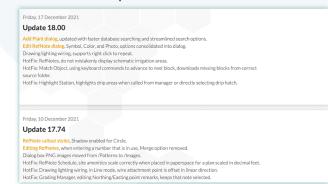

Manufacturer Connection

We've revolutionized the way you specify manufacturer products. Find catalogs, CAD content, and specifications. The resources you need all in one place – in CAD!

Tech Support

Our renowned technical support team is available when you need them. Spend your valuable time where it matters – in design.

Documentation

Our online documentation and Knowledge Base articles give you a step-by-step answer to every question a user has asked about the software.

Content

From CAD blocks to 3D models, hatch patterns, and details, we provide all the assets you need to realize your designs.
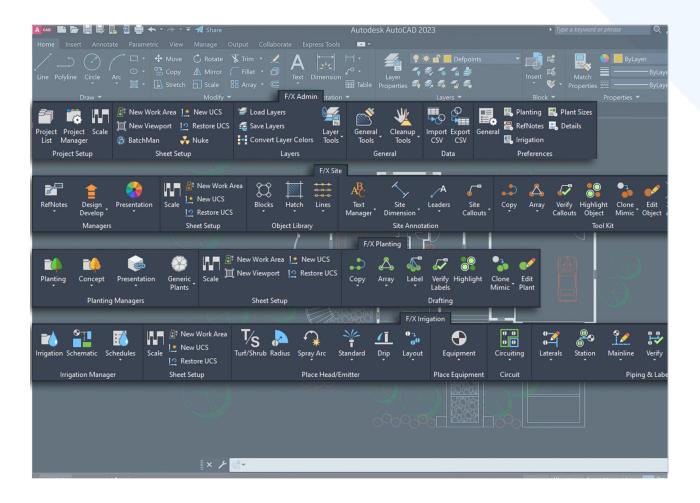

Limitless Updates

We're constantly finding ways to make your design experience better. Many of our periodic improvements to the software originate with suggestions from users like you.

EASY TO GET STARTED

YOU ALREADY KNOW HOW TO USE IT, BUT WE HAVE YOU COVERED.

Land F/X products drop right into your existing CAD ribbon.

Install directly into AutoCAD, and keep working within your familiar CAD space.

Stay connected with consultants and partners who also use CAD.
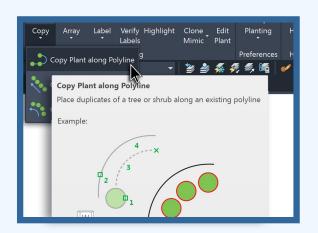

It's still AutoCAD – it's just smarter and adapted to your specific design needs.

TOOL TIPS

Learn about each tool by simply hovering over it.

Each tool in the Land F/X ribbons includes a description and a preview graphic showing its purpose and how to use it, along with a link to a documentation page on our website going in depth on that tool.

TRAINING RESOURCES

Our training resources cover all there is to know about in Land F/X.

While other software companies rely heavily on public forums and super users, we take painstaking efforts to ensure that every tool and workflow is documented thoroughly with easy-to-follow instructions.

IMPLEMENTATION

Reinforce your standards

We make it easy to set up your office standards and enforce them across all workstations.

Uniformed Training

With training and documentation available to everyone, you and your team will learn the software quickly. Our resources cover all learning styles and speeds.

Adaptable

Land F/X can easily support any style and size of implementation, from a single user to a whole team of designers across multiple offices.

Guidance

Our knowledgeable and helpful technicians are here for you when you need them, ready to answer your toughest questions and help build your confidence.

IMPLEMENTATION IS A CRITICAL STEP IN USING ANY SOFTWARE. IT TAKES CONSTANT OVERSIGHT AND ENCOURAGEMENT. WE PROVIDE SUPPORT SYSTEMS TO HELP ASSIST IN THIS PROCESS.

MORE THAN SOFTWARE

YOU GAIN A WHOLE TEAM.

Training

We know you'll have questions, and we're here to answer them with extensive training materials and helpful support staff. Need more help? Book a personalized training session.

Content

Your installation comes with everything you need to bring your designs to life, from plant symbols and site amenity blocks to realistic hardscape hatch patterns.

Community

When you join the Land F/X family, you're entering a network of industry professional users who are eager to help support each other. Our Community Forum is legendary!

"Once again, Land F/X comes through in record time helping me with various support issues. Land F/X is the best software company I have ever dealt with by far."

Tim O'Brien, Outlook Land Design

SUPPORT

Our world-class support team is here to help if you run into any issues integrating Land F/X into your office or have trouble using the software.

"I just won a bet with my wife. She said you guys wouldn't get back to me [about my technical support issue] until Monday, and I told her you'd get back to me within 5 minutes!"

Robert C. Gause, Gause and Associates, Inc.

STOP SUFFERING

YOU DESERVE TO WORK WITH TOOLS DESIGNED SPECIFICALLY TO MEET YOUR INDUSTRY'S NEEDS.

You could cut a big lawn with a push mower, but a ride-on mower would complete the job in a fraction of the time. In the same way, Land F/X applies automated and accurate processes to your most mundane tasks so you can focus your time and energy on design.

IF YOU AREN'T USING LAND F/X, WE GUARANTEE YOU'RE SPENDING AN UNNECESSARY AMOUNT OF TIME AND MONEY ON YOUR DESIGN WORK.

Remember the last time you created a plant schedule? How long did it take? 10 minutes? 30 minutes? An hour?

Creating an automated schedule with Land F/X takes just three clicks and appears like magic in a few seconds.

What about error checking your plan? How long did it take to (1) look for errors in a plan and (2) correct these errors across the entire project?

Land F/X uses an intelligent system to check for errors automatically and fix them in seconds. Rest easy knowing your plan is error-free.

FUNCTIONALITY

FEATURES THAT MAKE SENSE.

Our development process begins with user requests and continues with direction from real designers on our team. It's like having a personalized piece of software.

We believe in developing software that keeps up with the demands of landscape architecture while still being easy to use.

Our software doesn't replace you. It just allows you to accomplish more in less time.

We work hard to make our tools intelligent so you can focus your specific skills on your design process. In short, we do this for you.

Photo provided by Redizon

"I've used several products before Land F/X and it is by far the best. The Land F/X team is constantly improving the product, and one gets the sense that it's not just a piece of software but a 'labor of love' for their developers who also have a background in landscape architectural design. It's never been easier to put my drawing sets together, and they've never looked better!"

Shai Litt, InSite Chashmonaim LTD.

CUSTOMIZABLE

## INTEGRATES SEAMLESSLY INTO YOUR EXISTING STANDARDS.

Manage fonts, dimension styles, layer properties, colors, label appearances, and much more, all from a central location. Instantly save your settings into a unique profile called a Preference Set. Create as many Preference Sets as you need.

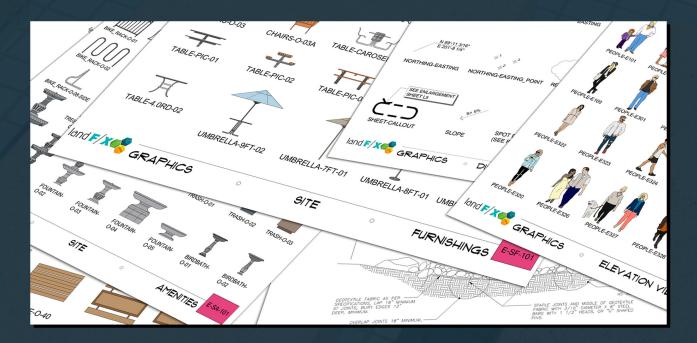

ENFORCES YOUR CAD STANDARDS.

Your preferences are shared across all users in your office to keep everything consistent. Land F/X organizes all objects onto the appropriate layers and applies your standards automatically.

FREEDOM TO MAKE DESIGNS YOUR OWN STYLE.

Out of the box, Land F/X comes with everything you need. Want to customize or add your own content? We make it easy!

Your installation comes with a gigantic library of default blocks, but you can edit them and even use your own.

"We utilize Land F/X in a multidiscipline office that includes planners and civil engineers. While Land F/X worked great 'out of the box,' it was easily customized to our existing office CAD standards."

Timothy Starkey, Coe & Van Loo

MONEY

YOU CAN'T AFFORD NOT TO.

Design software continues to raise the bar of expectations. Don't get stuck working inefficiently.

It's simple: Complete your current projects more quickly so you can take on (and get paid for) new projects.

"Land F/X is applicable to landscape design companies of all scales. It helps an office run more efficiently and increase productivity. It takes the mundane out of the design process. The technical support is professional and friendly at all times."

Xu Zhang
DHA Landscape Architecture

3D Images provided by Cooper Carry

By automating your most repetitive tasks and helping ensure your plans are accurate, we free up your time to innovate and build a better portfolio to attract more clients.

LAND F/X WILL PAY FOR ITSELF
IN YOUR FIRST PROJECT.

**HOW MANY LICENSES
DO I NEED?**

You can share your licenses
across multiple machines. The
number of licenses you have is
the number of people who can
use the software at one time.

*All licenses require AutoCAD, Civil 3D,
or F/X CAD 2019–2023

F/X CAD 2023

Powered by
AUTODESK®
AUTOCAD® OEM

AUTODESK

OUR BRANDED AUTOCAD LICENSE
EXCLUSIVELY FOR LAND F/X USERS.

Can

- Open/Save any version of DWG, DXF, DGN
- Geolocate plans
- Insert raster images
- Use Live Maps
- Import/Export PDF
- View proxy objects (Civil 3D, Architectural, Mechanical)
- Run any AutoCAD command you use regularly
- Use Sheet Set Manager
- Access 3D Connection for SketchUp, Rhino, and Revit
- Customize interface and shortcuts
- Get you direct support from us!

Can't

- Run AutoLISP scripts or other add-ons
- Run without a Land F/X License
- Use AutoCAD's Rendering, Lighting, or 3D commands
- Use Autodesk Traces and Markups
- Be installed on more than two machines, or have a second installation used by another person.

F/X CAD is PC-only software. If you have a Mac, we recommend using Parallels.

$775/ Year

Annual fee covers support and
upgrades to future releases.

*Requires a Design F/X, Planting
F/X, or Irrigation F/X license
